

Gold Layer Data Dictionary

This document outlines the structure and metadata for the Gold Layer models in the Medallion Architecture.

1. dim_providers

Description: Central dimension for all Skilled Nursing Facility (SNF) provider attributes.

Column Name	Description	Source / Derivation
ccn	Primary Key. CMS Certification Number (CCN) uniquely identifying the facility.	silver_providers
provider_name	Name of the facility.	silver_providers
provider_address	Street address.	silver_providers
city	City.	silver_providers
state_code	State abbreviation (e.g., 'TX', 'CA').	silver_providers
zip_code	ZIP Code.	silver_providers
county	County name.	silver_providers
provider_full_address	Pre-concatenated full address for display in reports.	Derived (ADDRESS, CITY, STATE ZIP)
phone_number	Contact phone number.	silver_providers
ownership_type	Type of ownership (e.g., For profit, Non profit).	silver_providers
provider_type	Facility type classification.	silver_providers
is_hospital_based	Boolean flag indicating if it's based in a hospital.	silver_providers
is_ccrc	Boolean indicating Continuing Care Retirement Community.	silver_providers
certified_bed_count	Number of certified beds in the facility.	silver_providers

Column Name	Description	Source / Derivation
facility_size_category	Categorical classification based on bed count (Small, Medium, Large).	Derived (<=50 , <=120 , 121+)
overall_rating	CMS overall star rating (1-5).	silver_providers
overall_rating_label	Text label for rating (e.g., "5 Stars") or "Not Rated".	Derived
health_inspection_rating	CMS health inspection star rating.	silver_providers
quality_measure_rating	CMS quality measure star rating.	silver_providers
staffing_rating	CMS staffing star rating.	silver_providers
latitude	Latitude coordinates for mapping.	silver_providers
longitude	Longitude coordinates for mapping.	silver_providers
data_snapshot_date	Timestamp metadata for the record's processing date.	silver_providers.processing_date

2. fct_quality_readmission

Description: Answers Metric 3.3 (Risk-standardized readmission rates) and 3.5 (Correlation between staffing and readmission).

Column Name	Description	Source / Derivation
ccn	Primary Key. Foreign Key to dim_providers .	silver_snf_vbp_facility
performance_readmission_rate	Facility's risk-standardized readmission rate during	silver_snf_vbp_facility

Column Name	Description	Source / Derivation
	performance period.	
baseline_readmission_rate	Baseline readmission rate for comparison.	silver_snf_vbp_facility
performance_score	Overall Value-Based Purchasing (VBP) performance score.	silver_snf_vbp_facility
vbp_ranking	National ranking in the VBP program.	silver_snf_vbp_facility
state_avg_short_stay_rehospitalized	Average state readmission metric.	silver_state_averages
state_avg_short_stay_ed_visit	Average state emergency department visit metric.	silver_state_averages
national_avg_short_stay_rehospitalized	Average national readmission metric.	silver_state_averages (NATION)
reported_total_nurse_hours_prd	Total reported nurse staffing hours per resident day.	silver_providers
readmission_to_state_avg_ratio	Ratio of the facility's readmission rate to the state average.	Derived
readmission_to_national_avg_ratio	Ratio of the facility's readmission rate to the national average.	Derived

3. fct_staffing_occupancy

Description: Answers Metric 1.1 (Nursing hours per resident), 2.3 (Staffing vs Occupancy), and 2.5 (Lowest staffing vs occupancy).

Column Name	Description	Source / Derivation
ccn	Primary Key. Foreign Key to dim_providers .	silver_providers
avg_daily_residents	Average number of daily residents in the facility.	silver_providers
certified_bed_count	Number of certified beds for capacity reference.	silver_providers
occupancy_rate	Computed resident-to-bed ratio, capped at 1.1 (110%) to handle data anomalies.	Derived (avg_daily_residents / bed_count)
reported_rn_hours_prd	Reported Registered Nurse (RN) hours per resident day.	silver_providers
reported_lpn_hours_prd	Reported Licensed Practical Nurse (LPN) hours per resident day.	silver_providers
reported_cna_hours_prd	Reported Certified Nursing Assistant (CNA) hours per resident day.	silver_providers
reported_total_nurse_hours_prd	Total reported nursing staff hours per resident day.	silver_providers
state_avg_rn_hours_prd	State average for RN hours.	silver_state_averages
state_avg_lpn_hours_prd	State average for LPN hours.	silver_state_averages
state_avg_cna_hours_prd	State average for CNA hours.	silver_state_averages
state_avg_total_nurse_hours_prd	State average for total nursing hours.	silver_state_averages
national_avg_total_nurse_hours_prd	National average for total nursing hours.	silver_state_averages (NATION)

Column Name	Description	Source / Derivation
staffing_to_state_avg_ratio	Ratio of facility's total nurse hours to state average.	Derived
staffing_to_national_avg_ratio	Ratio of facility's total nurse hours to national average.	Derived

4. fct_turnover_analysis

Description: Answers Metric Q2 regarding Nurse staff turnover rates and correlations between turnover and staffing levels.

Column Name	Description	Source / Derivation
ccn	Primary Key. Foreign Key to dim_providers .	silver_providers
total_nurse_turnover_pct	Facility's total nursing staff turnover percentage.	silver_providers
rn_turnover_pct	Facility's RN turnover percentage.	silver_providers
administrator_departures	Number of administrator departures during the period.	silver_providers
reported_total_nurse_hours_prd	Total reported nursing staff hours per resident day.	silver_providers
state_avg_total_turnover_pct	State average for total nursing staff turnover.	silver_state_averages
state_avg_rn_turnover_pct	State average for RN turnover.	silver_state_averages
state_avg_administrator_departures	State average for administrator departures.	silver_state_averages

Column Name	Description	Source / Derivation
national_avg_total_nurse_turnover_pct	National average for total nursing staff turnover.	silver_state_averages (NATION)
national_avg_rn_turnover_pct	National average for RN turnover.	silver_state_averages (NATION)
turnover_to_state_avg_ratio	Ratio of the facility's total turnover to the state average.	Derived
turnover_to_national_avg_ratio	Ratio of the facility's total turnover to the national average.	Derived
